

INDEPENDENT SUPPLY COMPANY

A DIVISION OF EMCO CORPORATION

Ruud is a premium manufacturer of HVAC and water heating products. ISC Edmonton supplies and supports their residential furnaces, air conditioners and water heaters, and commercial products like rooftop units

Tosot is one of the largest air conditioning manufacturers in the world. With a focus on heating, their heat pump products are rated to heat beyond **-30C** making them a viable option for our climate. They produce ductless splits, Apex ducted heat pump systems, VRF systems and PTACs/ portable units. They also have -40 rated low ambient cooling units for applications like server rooms

ClimateMaster is a market leader in water source and geothermal heat pump technology. ISC Edmonton prides ourselves on our inventory of both replacement units and parts to support the Alberta market
